## Keeping My Composure

Lyrics by Sheree Hicks

Production by DJ Pope at the Funk Hut.

### VERSE 1

You got a way of making me  
Step outside myself  
Under normal circumstances  
This would never be  
See You played with my heart  
Cause I let you hold the key  
But I gotta listen to the words  
That my mind is telling me  
That's why I'm

### CHORUS

Keeping my composure  
Sometimes I wanna jump outside my skin  
To let you in  
Keeping my composure  
I'm tryna' keep this poker face  
Just can't let you have your way

### VERSE 2

Sometimes I love the way you lie  
Looking straight in my eyes  
Saying that I'm the only one  
And the others you deny your time  
Well I want you to know  
Intuition never lies  
I know you think I'm love blind  
But I've been around the block a few times mmm

You got a way of making me step outside myself  
Under normal circumstances  
This would never be

You played with my heart  
Cause I let you got the key  
But I gotta listen to the words  
That my mind is telling me  
that's why I'm

## CHORUS

Keeping my composure  
I wanna jump outside my skin  
To let you in  
Keeping my composure  
I'm tryna' keep this poker face  
Just can't let you have your way  
Sometimes I wanna go back on my word  
to feel your touch  
Keeping my composure  
But im only human  
and I want you so much

## VERSE 3

Your lip service had me convinced  
That what we had was heaven sent  
You mislead to a degree  
Had my vision blurry  
You know you got ways to make me  
Wanna blow up but no way  
Its taking every fiber in me  
To keep this smile on my face  
  
You got a way of making me step outside myself  
Under normal circumstances  
This would never be  
You played with my heart  
Cause I let you got the key  
But I gotta listen to the words  
That my mind is telling me

## CHORUS OUT

Keeping my composure  
I wanna jump outside my skin  
To let you in  
Keeping my composure  
I'm tryna' keep this poker face  
Just can't let you have your way  
Keeping my composure  
Sometimes I wanna go back on my word  
to feel your touch  
Keeping my composure  
But im only human  
And I want you so much
